Summary

Analyst with 3+ years of experience driving commercial analytics, experimentation, automation, and scalable reporting solutions across healthcare and fintech. Proven track record improving reporting performance, identifying revenue opportunities, and building analytics products using modern data stack tools.

Experience

Roche Analyst

October 2024 - Present
Chennai , India

- Optimized SQL transformation pipelines in Snowflake, cutting query and reporting run-time by 35% and enabling near real-time decision-making for commercial teams.
- Built 10+ Power BI dashboards that reduced reporting turnaround by 25%, giving senior stakeholders live visibility into operational KPIs.
- Automated recurring reporting workflows using Python and Google Sheets APIs, saving ~40% of weekly manual effort across the analytics team.
- Designed and executed A/B tests and statistical experiments to evaluate commercial initiatives, with findings presented directly to business leadership.
- Developed and maintained dbt models that improved data lineage, documentation, and transformation reliability across the Snowflake data warehouse.

GYANDHAN FINANCIAL SERVICES Analyst

April 2024 - September 2024
New Delhi , India

- Identified 25–30% revenue opportunity through loan funnel and conversion analysis by uncovering high-intent user segments previously underutilized.
- Led a cross-functional effort to improve workflows, targeting, and communication, including admission counseling integration, which tripled conversion rates from 3% to 10% and generated 1.5 Cr in additional revenue.
- Reduced dashboard latency from 50 seconds to 7 seconds through SQL tuning, indexing strategy, and redesigned aggregation layers, significantly improving user adoption.

AlmaBetter Data Analyst Intern

March 2023- March 2024
Bengaluru, India

- Improved data quality by 15% by implementing validation and cleansing pipelines.
- Developed Power BI dashboards using multi-source data to support business reporting.
- Extracted and transformed raw data using SQL to support weekly and monthly stakeholder reporting cycles.

Kpit Technologies Data Analyst Intern

May 2022 - October 2022
Bengaluru, India

- Built Power BI reporting solutions supporting revenue planning and stakeholder decision-making.
- Automated SQL and Excel-based data preparation workflows, improving reporting efficiency.

Education

Woolf University Computer Science

July 2023 - May 2026
Masters

Sharda University Computer Science and Engineering

June 2018 - June 2022
B.Tech

SKILLS

Analytics & BI

SQL, Power BI, Looker Studio, Tableau, Excel, Dashboard Development, KPI Reporting

Data & Automation

Python, Pandas, ETL, Data Validation, Workflow Automation

Analytics Techniques

A/B Testing, Regression, Forecasting, Segmentation, Statistical Analysis, Experiment Design, Data Modeling

Data Platforms

Snowflake, dbt, MySQL, PySpark, AWS SageMaker, Flask APIs

Certifications

Advanced Certification in Full Stack Data Science & AI
Indian Institute of Technology, Guwahati

June 2024

Full Stack Data Science Program
Coding Ninjas

February 2023
